

## Coptic I

### Self-Study Program

*Note: To start any selection, click on the shaded button, labeled 'Mod' or 'Trad'. Any lesson using the Modified pronunciation system outlined in Lesson 1 is accessible by clicking on the button labeled 'Mod'. The one using the current translation system in the Coptic Church is accessible by clicking on the button labeled 'Trad'. The modified pronunciation is not too diverse from the current one. In the opinion of the compiler of these lessons, it is closer to the Ancient Egyptian than the current pronunciation system. To eliminate controversy each is included in separate set of lessons.*

*Each Coptic word or phrase can be clicked on the shape below it for the pronunciation. To return to this menu click on the Course Menu option at the margin of each lesson. Each lesson is divided into three sections: Grammar, Vocabulary, and written exercises (except for the first lesson). The vocabulary should be studied and memorized first before the exercises are attempted. After the first six lessons, the student should attempt the closed-book quiz. At the conclusion of the 11<sup>th</sup> lesson, the student should take the final examination. Both quiz and final examination are included but with no pronunciation.*
